ESSENTIAL MODS

SVE Aluminum Radiator

This Mustang aluminum radiator from SVE is the perfect replacement for your New Edge. Bolting right in, this lightweight Mustang aluminum radiator is a quick and easy fix for a clogged, leaking, or damaged component.

SVE Caster Camber Plates

Made of a durable and protective Nickel Plate finish, these plates will not chip or fade. With the Preloaded Spherical bearing design mated with 100% Tig Welds, you can be rest-assured these will last the lifetime of your Mustang. Our plates offer more adjustability than the competition and there's no drilling required.

SVE Decal Kits

From logo decals to stripe kits, we only use the highest quality vinyl to provide pristine looks and longevity. Apply with confidence using our SVE Decal Application kit and assure that your graphics are applied bubble free with ease.

SVE Smoked Tail Light Tint

These covers are made of high quality vinyl with an adhesive backing for an easy installation. Simply peel and stick these decals straight onto your tail lights to save the time and money of painting them. This kit includes all of the direct fit decals to tint your tail lights for a smoked out look.

SVE Lowering Springs

These new and improved SVE Mustang Lowering Springs offer aggressive styling and wicked handling, all at an affordable price! These Springs will immediately improve handling and give your Mustang that aggressive lowered look.

SVE S1 Racing Seats

These black S1 seats, coming in at a weight of just 24lbs a piece, are a great way to shave some pounds out of the interior without having to sacrifice comfort. They provide enough comfort for daily driving while hugging you tight during spirited track outings!

SVE 13" Cobra Style Brakes

These SVE Brakes feature a set of new Cobra Style, 2 piston, brake calipers as well as a matching set of rear calipers. They come loaded with a high performance, friction compound, pad that is aggressive enough for weekend track days and auto cross events, yet gentle enough to use comfortably on a daily driver without excessive wear.

SVE Mach 1 Grille Delete

The SVE MACH 1 grille delete allows the removal of the honeycomb grille and adds a clean new look to the front of your 1999-04 Mustang. This SVE 2 piece kit includes delete panel, running pony emblem and all required mounting hardware.

SVE Mustang Power Pack

Includes economy cold air intake, 75mm throttle body, plenum, and underdrive pulley kit and is the perfect way to start making high horsepower in your 1996-2001 Mustang GT. With this kit you bring more air to your engine resulting in more power and a healthier response. Each part bolts on easily to your 4.6L engine and can be installed with common hand tools!

SVE Series Wheels

Featured here are the SVE Series 3 wheels, the latest in our line of Late Model Restoration Exclusives, offered alongside a variety of styles and patterns. We strive to offer a variety of sizes, offsets and finishes to fit your Mustang and your unique taste! So, whether you Drift, Cruise, or Race we've got a wheel to help you beat the competition in style.

SVE 8" Shorty Antenna

Our SVE 8 inch Mustang shorty antenna is made from stainless steel and powder coated black for lifetime quality. It is designed to look exactly like your stock antenna, only shorter! It comes with everything you need and installs in minutes.

SVE Factory Tint Headlight

Give your New Edge that clean, factory look with this headlight replacement kit. Replace those dingy headlight lenses and increase nighttime visibility with this affordable kit from SVE.

SVE Mach 1 Chin Spoiler

This SVE Mach 1 Style Chin Spoiler is made of durable ABS plastic to withstand impact for a durable, long-lasting product. Unlike other chin spoilers on the market, this spoiler is designed to fit the full length of your bumper for a clean, flush look from the very front, back to the wheel wells.
